APPROVAL \_\_\_\_\_ OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. A substantial headgate and measuring device must be installed and maintained to facilitate the measurement and control of water. The State retains the right to regulate the use of the water herein granted at any and all times.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

This permit is subject to the condition that the permittee must ensure that wildlife which have customarily used such water will have access thereto, NRS 533.367.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The total combined duty of water under Permits 50109, 50110 and 50111 shall not exceed 112.5 acre-feet annually.

These permits are supplemental to Truckee River Decreed rights as set forth in the Orr Ditch Decree.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and

not to exceed 0.1 cubic feet per second, but not to exceed 72.4 acre-feet annually and not to exceed a yearly duty of 4.5 acre-feet per acre of land irrigated from any and/or all sources.

Work must be prosecuted with reasonable diligence and be completed on or before April 21, 1989

Proof of completion of work shall be filed before May 21, 1989

Application of water to beneficial use shall be made on or before April 21, 1992

Proof of the application of water to beneficial use shall be filed on or before May 21, 1992

Map in support of proof of beneficial use shall be filed on or before May 21, 1992

Completion of work filed MAY 22 1989
